ACADEMIC PROJECTS

Car Web-based Management System | Mar 2023

- Enhanced a full-stack web application for car data management.
- Designed backend features using PHP, with MySQL for data storage and CRUD operations.
- Executed UI using HTML & CSS for better user interaction.

PROFILE

Recent MCA graduate with hands-on experience in full-stack and mobile application development through academic and real-world projects. Strong foundation in java backend development and MySQL, with practical skills in html, CSS, JavaScript, and react native. Experienced in application development, Api integration, data handling, and testing. Highly motivated, quick learner, and actively seeking entry-level or internship opportunities to grow and contribute in a professional development environment.

EXPERIENCE

Mobile Application Development (Internship) - Chennai

Skandax Nexus Private Limited | Oct 2025 – Jan 2026

Developed and maintained mobile applications using Java, React Native, and RESTful APIs.

Designed backend workflows for data handling, authentication, and API integration.

Assisted in integrating frontend components with backend services for smooth data flow.

PROJECTS

Rupee Wise |Role: Full Stack

- Developed the complete frontend using **React Native and JavaScript**.
- Designed and implemented a **custom data processing engine** to extract and analyze financial transactions from SMS data.
- Built **regex-based transaction filtering logic** to identify UPI, debit, credit, and banking messages.
- Structured application logic using **modular architecture** (hooks, context, utilities).
- Integrated **subscription-based features**, referrals, and update mechanisms to improve user engagement.
- Optimized UI flow and overall **user experience (UX)**.

Junior Assistant – Data Entry | Mar 2025 – July 2025

Dhanalakshmi Srinivasan Educational and Charitable Trust, Perambalur

- Managed and maintained the **student database using MS Excel**, ensuring data accuracy and regular updates.
- Handled **end-to-end college data management**, keeping records well-organized and up to date.
- Entered and updated **student admission details on college portals and official websites**.
